

Outdoor Rack Weather Proof — 6U

Part Code: DROD-IPR6U-400

Designed for outdoor networking, telecom, CCTV and surveillance installations where equipment requires protection from dust, moisture and harsh environmental conditions. Built with a rugged weather-resistant enclosure, precision-engineered construction and a durable powder-coated finish for long-lasting outdoor performance.

Specifications:

- Unit Size: 6U
- External Dimensions (W×D×H): 550 × 400 × 368mm (Part Code: DROD-IPR6U-400)
- Construction: Heavy-duty weather-proof metal enclosure
- Protection: Designed for outdoor installation against dust and environmental exposure
- Door: Lockable front access door
- Cable Entry: Weather-protected cable entry
- Mounting Rails: Standard 19" rack mounting with clear "U" marking
- Finish: Premium powder-coated weather-resistant finish
- Mounting: Wall mount design

Ideal For:

- Outdoor CCTV Systems
- Telecom Equipment
- Networking Devices
- Fibre Optic Equipment
- Wireless Access Points
- Industrial Communication Systems

Optional Accessories:

Cooling Fan with Air Filter · ACD 6-Socket 5A · ACD 6-Socket 5/15A · Cable Manager 1U PVC Horizontal · Cantilever Tray · Hardware Packet
